SUMMARY

Full Stack Developer and Backend/API Specialist with 8+ years of experience in Laravel and Vue.js.

Built and launched platforms like HasadPlus.com and SocialCombiner, and contributed to Viavii, Tajawal, and WallPost, delivering scalable APIs, SaaS solutions, and intuitive front-end experiences.

Expertise in E-commerce, SaaS, ERP, FinTech, and Tourism, while actively contributing to open-source projects (GoCondor, Authority).

Passionate about creating secure, maintainable, and high-performance digital solutions.

TECHNICAL SKILLS

Backend/API: Laravel, RESTful API design, microservices, MySQL, MongoDB

Frontend: Vue.js, React.js, Inertia.js, TailwindCSS, Bootstrap

DevOps & Tools: Docker, Git, Cloud Infrastructure, CI/CD pipelines

EXPERIENCE

HasadPlus

Sudan

Full Stack Developer / Founder

may 2025 - present

- Built and launched a **cloud-based sales and accounting platform** for small businesses using **Laravel 12, Vue.js 3, and Inertia.js**.
- Developed a **comprehensive backend API** managing, financial data, and real-time reports.
- Designed **modular, reusable frontend components** and secure backend workflows.
- Implemented **real-time reporting, data export features, and performance optimizations** for high usability.
- Managed **cloud infrastructure and databases** to ensure scalability, reliability, and smooth deployment.
- Provided **ongoing technical support and user training**, translating business needs into maintainable features.

Skills: Laravel · Vue.js · Inertia.js · MySQL · Docker · SaaS

Viavii

Amman, Jordan

Senior Full Stack Developer (Remote)

Aug 2021 - Apr 2022

- Contributed to the development of new platform features, including **Amazon Payment Services and Stripe integrations with 3D-Secure**, enhancing transaction security and reliability.
- Designed and implemented a **new shopping cart module**, improving frontend performance and user experience.
- Developed **reusable Vue.js components**, ensuring consistent UI and maintainable code.
- Upgraded the **Laravel core application** to the latest version, improving stability and leveraging new framework features.
- Participated in **feature planning, debugging, and performance optimization** in a collaborative Scrum environment.

Skills: Laravel · MySQL · Vue.js · Docker · Payment Gateways

Social Combiner

Dubai, UAE

Full Stack Developer / Founder

Feb 2019 - December 2020

- Architected and developed a **social media management platform** as a solo developer, handling both **Laravel backend** and **Vue.js frontend**.
- Integrated **Instagram API** and **Google Vision AI API** to implement key platform features.
- Managed the **full release lifecycle**, from development to production deployment using **Docker**, ensuring system stability and performance.
- Designed **modular architecture** and reusable components for maintainable code and scalable features.

Skills: Laravel · Vue.js · Docker · Full-Stack Architecture

Tajawal

Dubai, UAE

Software Engineer

May 2017 - Jan 2019

- Developed and maintained **robust REST APIs** supporting dynamic content delivery for a key company product within a Scrum team.
- Designed the **backend architecture** to integrate a **headless CMS** with existing APIs, enabling flexible content management.
- Improved **API performance and scalability** by implementing and extending **RabbitMQ-based queues** for asynchronous processing.
- Built a **custom ETL tool** to extract, transform, and deploy data from Google Sheets API into production, streamlining team workflows.
- Led **backend release management**, ensuring system stability and smooth deployment of product updates.

Skills: Laravel · API Development · MongoDB · Microservices · RabbitMQ · Docker

Smart Management IT Solutions

Doha, Qatar

API Developer

May 2016 - May 2017

- Engineered **robust mobile app integration APIs** for a core ERP product, enabling seamless data synchronization across platforms.
- Designed and implemented a **continuous integration (CI) pipeline**, improving deployment efficiency and reducing manual errors.
- Developed a **cross-platform notifications system** for real-time emails and push notifications for iOS and Android.

Skills: Laravel · API Development · MySQL · Amazon Web Services (AWS)

Gearotire.com

Doha, Qatar

Full Stack Developer / Founder

June 2015 - May 2016

- Built and maintained a **niche content platform**, managing both **frontend (/HTML/CSS/Blade)** and **backend (Laravel/PHP)**.
Managed **technical infrastructure, deployments, and release processes**, ensuring platform reliability and maintainability.

- Implemented **SEO strategies** to increase organic traffic and user engagement.
- Designed **modular, reusable components** to support future feature expansion.

Skills: Laravel · MySQL

Nano Technovations

Doha, Qatar

Software Developer

August 2014 - June 2015

- Developed and deployed a **guest registration web application for exhibitions**, streamlining attendee check-in and improving data collection efficiency.
- Created an **interactive leader dashboard** for the World Men's Handball Championship in Qatar, providing real-time insights and performance tracking for the Client.
- Built an **Insights dashboard for a business incubation center**, visualizing KPIs to support data-driven decision-making.
- Managed **web and database servers**, ensuring high availability, optimal performance, and data integrity across all applications.

Skills: Laravel · MySQL

Wisdom Code for Business Development

Khartoum, Sudan

Web Developer

February 2013 - June 2014

- Developed **dynamic web applications** using **PHP and MySQL**, focusing on user-friendly and functional platforms.
- Designed and built a **custom job board web application** for a hiring agency, streamlining their recruitment process.
- Implemented **frontend and backend features**, ensuring maintainability and usability.

Skills: PHP · MySQL · HTML · CSS · Javascript

EDUCATION

University of Al-Neelain

Khartoum, Sudan

BSC. Hons – Electronics & Telecommunication Engineering

2010
